MICHAEL WANG FOR SUSSEX AMBITIOUS FOR A BETTER FUTURE

CRISIS!

Sussex left a victim of Conservative & Labour national failures

After the fiasco of the Conservatives and the cowardice of Labour, Sussex, together with the whole country, have been left counting the human costs.

But it does not have to be this way. Sussex should not be a victim of national failures.

While devolution was undemocratically forced upon us, this is still a

once-in-a-generation opportunity for our local area.

Local Campaigner Michael Wang says:

"Sussex is crying out for hope and a different path in politics. We are tired of false promises. More of the same and tinkering around the edges is not enough. It is time for real ambitious change!"

MICHAEL WANG

A strong plan for Sussex

✓ ***Creating more housing.***

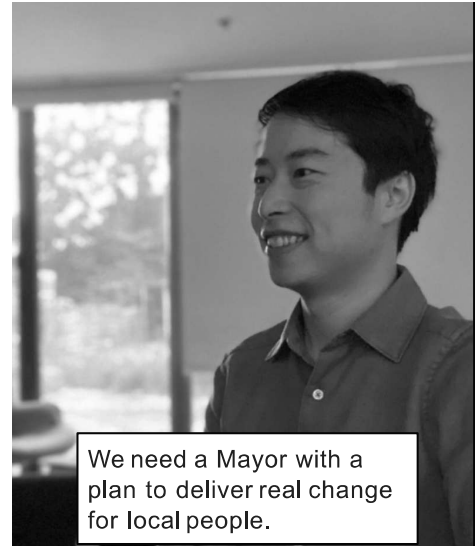

The only solution to the housing crisis is to build more houses. I will use my mayoral powers to make sure more housing is approved, more quickly. In this I will balance the unique challenges and needs of cities and country, while focusing on social and affordable housing.

✓ ***Improving health and care.***

I believe a more integrated strategy will unlock efficiency, and therefore improve quality of services. As Mayor, I will use my powers to ensure care is put on the same standing as health, and mental health as physical health.

✓ ***Turbocharging the economy.***

Sussex has all the right talents and ingredients to create a strong future-looking economy. From Green Energy to Tech, tourism to education, I will deliver targeted coordination, infrastructure and funding to help local change-makers succeed.

Meet Michael

I am 30 and feel privileged to be able to live in Sussex, a place full of untapped potential. Professionally, I work as an immigration lawyer and entrepreneur.

I am a LibDem because of my strong belief that we must create a society where individuals have the right support to achieve their full potential.

I am an experienced campaigner and candidate, having stood as a PPC during the '24 GE, and a Councillor candidate where we achieved a historic vote share increase in a previously neglected area.

Michael wants to hear from You!

I love the LibDems because we are the party who do politics differently. This selection should be no different. I am eager to meet you and hear your views and concerns.

Defending British Values

Even before I arrived in this country as a migrant, I have always been a believer in the British values of tolerance, respect, democracy and rule of law. That's why I'm gravely concerned by the developments here and across the world. We LibDems must campaign hard as the only antidote against the snake-oil of the populist right, while always championing human rights, international law, and denouncing violence against civilians and genocide.
